

We have done business exclusively with Shugart Builders since they built our house 25 years ago. In 2005 we contacted Greg with the idea of turning our deck into a screened in porch. He expounded on the idea with multiple suggestions both cosmetic and functional and the porch has turned into our favorite (summer) part of the house. We have found Shugart Builders to be punctual, personable, and extremely competent. Their quality is outstanding and there is never a problem with followup if needed. Also a critical of any construction job is being able to rely on the estimate.....and Shugarts have consistently lived up to their quotes.
