

Having used Shugart Builders for almost 30 years, all we can say is that we would never consider another builder! Shugart Builders has been responsible for an addition to our first home in the city, along with a major kitchen and bath remodel. When the time came to build a new house, Shugart Builders was our choice and we have been so delighted. We have many people stop and look at the house and inquire as to who built the house. Of course, we are proud to say, "Shugart Builders!" and we encourage them to contact Greg. Incidentally, we go "way back" with Shugart Builders, as my husband's parents used Vern Shugart and his crew for remodeling and an addition to their house also. We are contemplating a sunroom addition to our "new" house and Shugart Builders will do the job. Fine craftsmanship, integrity, and honesty are all traits that Shugart Builders exemplify. Greg, Nick, Dave, Rich, and the rest of the crew are the best!"
